## Why choose Direct Care?

### Intuitive and easy-to-use

From calorie tracking to body mapping to comprehensive deterioration monitoring with Direct Restore, Direct Care's unique features and intuitive interface also comes with comprehensive UK support provided by experts in the care sector.

Plus, works great on phone, tablet and computer!

### Personalised Assessments

Our assessments focus on all elements of your residents health and daily lives, giving your care staff a deeper understanding of any potential issues or challenges that residents may face.

### Powerful data reporting

Enhanced analytics and reporting which enables in-depth audit trails for both individual residents and the collective population within the care home.
